

# AMRRIC Education

## Ticks & Parasites

Educational Resource (posters)

2023

Resource Overview	
Year Level	Years 10- Adult
Pre-requisite Knowledge (optional)	Before engaging with this resource, it could be helpful for viewers to understand what a tick is and how it operates, i.e. ticks need to feed on a living host to survive. Additionally, it could be beneficial for viewers to have basic knowledge on diseases and germs and how these affect individuals, animals and the broader community.
Learning Intention (WALT)	Through utilising this resource, people will learn about the signs and symptoms of Ehrlichiosis and preventative measures that we can take to reduce infection rates in our dogs. People will have an increased ability to recognise Ehrlichiosis and take necessary action for treatment.
Included Resources	<ul style="list-style-type: none"> <li>• 1 x Ehrlichiosis information poster</li> </ul>
Additional AMRRIC Developed Supporting Resources	<ul style="list-style-type: none"> <li>• <a href="#">Ehrlichiosis animation</a></li> <li>• <a href="#">Ehrlichiosis – Guide for LGAs</a></li> <li>• <a href="#">Ehrlichiosis – Comms Package for LGAs</a></li> </ul>

# Dog Tick Sickness

There is a new tick sickness called **Ehrlichiosis** and it's making **DOGS SICK**

Dogs get the sickness when bitten by a tick that has the Ehrlichiosis germ

Dogs are tired and sleep lots

Dogs don't want to eat

Dogs lose weight and get skinny

Dogs eyes go cloudy

**Dogs can die from this sickness!**

Stop dogs from getting or spreading tick sickness. Give dogs regular tick medicine.
