

# HAPPY vs UNHAPPY CATS

## CATS TALK WITH THEIR BODIES

Knowing when a cat is expressing friendly or unfriendly behavior can help prevent bites and scratches

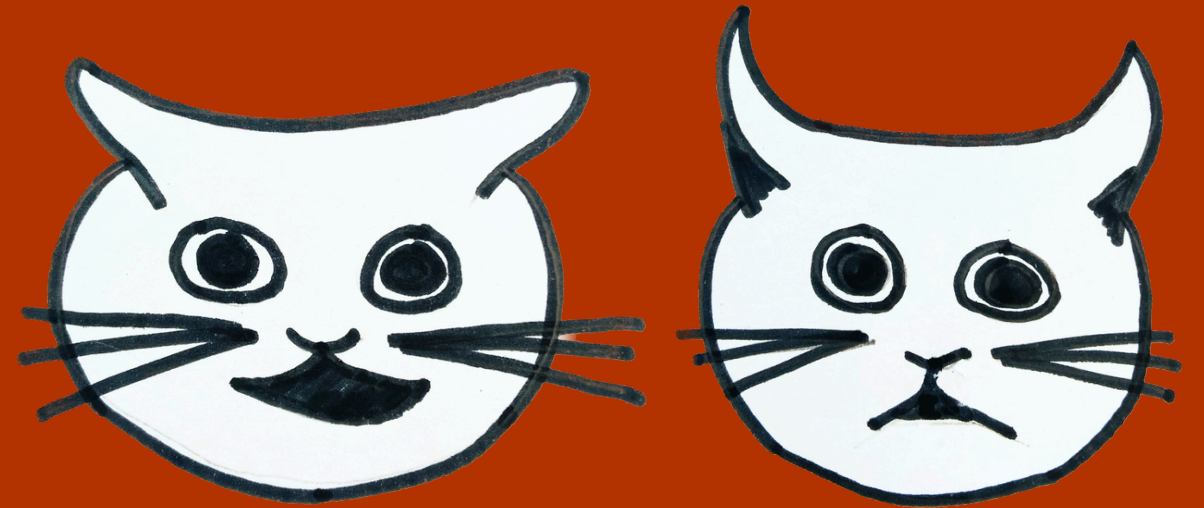

Relaxed body

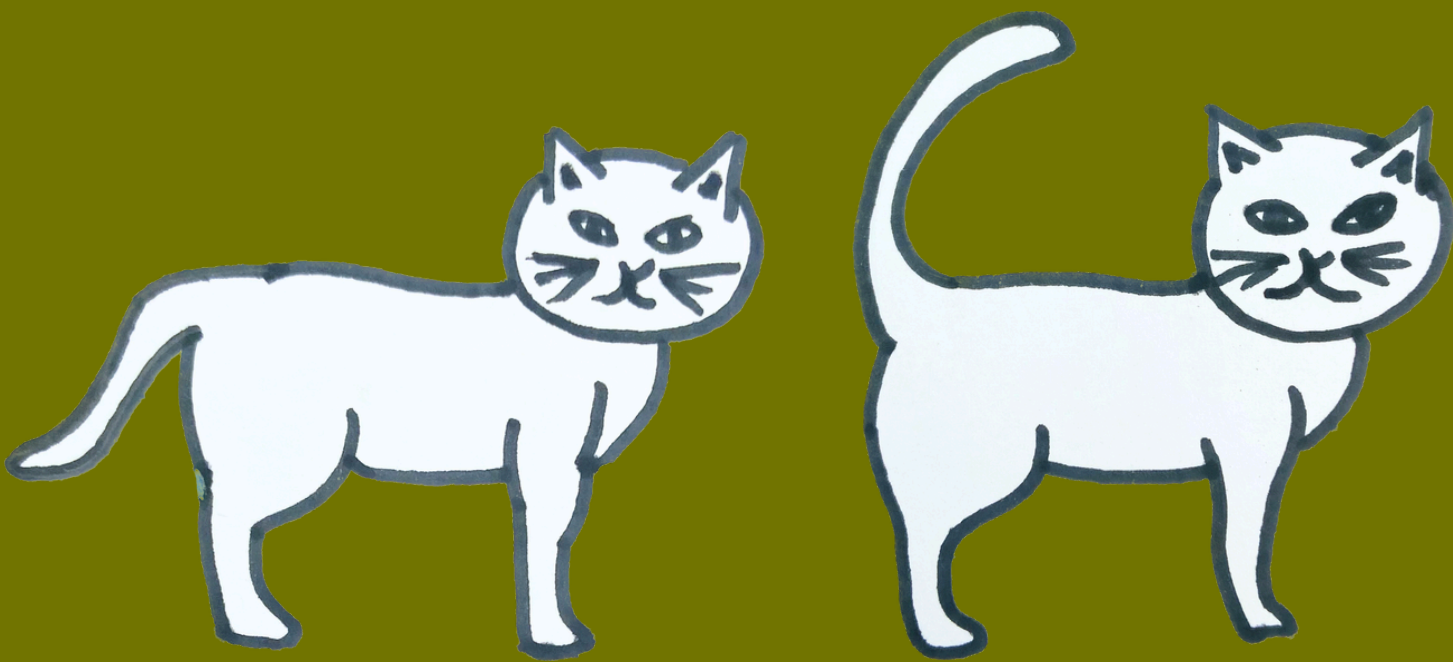

High and stiff body, with their fur standing up

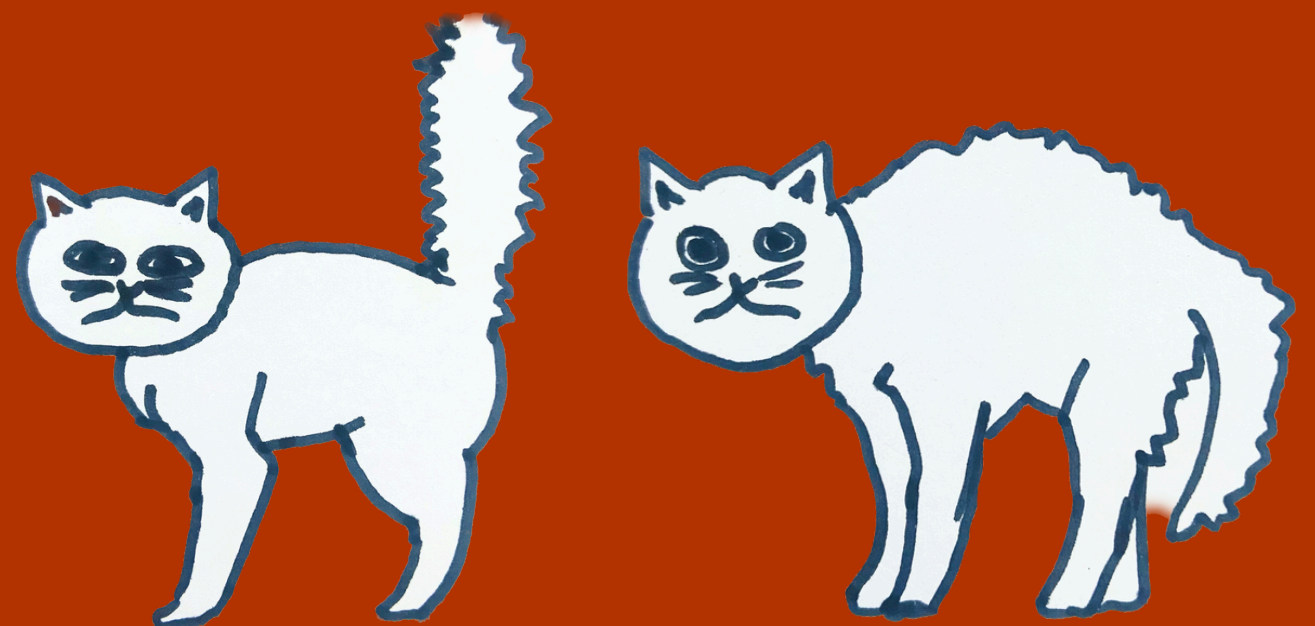

Relaxed eyes and ears

Flat ears and wide eyes

Tail relaxed down or curved forward

Tail puffed up, flicking side to side, or under their body

**REMEMBER:** FOR YOUR SAFETY, NEVER APPROACH A CAT THAT IS EXPRESSING UNFRIENDLY BEHAVIOURS.
