

Puppy and Kitten Worming Schedule

Puppies and kittens can get worms from their mother and from the environment. Worms can make them very sick! Puppies and kittens need to be wormed more often than adult animals.

Follow this worming schedule to help keep your puppy or kitten healthy

Worm your puppy or kitten at:

 2 weeks old ☐ Done date ____/____/____	 4 weeks old ☐ Done date ____/____/____	 6 weeks old ☐ Done date ____/____/____
 8 weeks old ☐ Done date ____/____/____	 10 weeks old ☐ Done date ____/____/____	 12 weeks old ☐ Done date ____/____/____
 4 months old ☐ Done date ____/____/____	 5 months old ☐ Done date ____/____/____	 6 months old ☐ Done date ____/____/____

From 6 months old, worm your puppy or kitten every 3 months

If you are unsure which worming product to use, ask your local animal health worker, vet provider, or AMRRIC
